The vestry approved these updates to Covid protocols at its March 22, 2022, meeting:

- Masks are recommended, but not required, for vaccinated persons. They are required for unvaccinated persons and recommended for everybody when singing hymns. Why masks for singing? Singing projects our breath up to 20 feet. Why not the choir? All members are vaccinated, and the choir is more than 20 feet from the congregation.
- Ministers will continue to wear masks when administering Holy Communion. Communion will be at the altar rail, with only three communicants per section unless they are members of the same family.
- Communion by intinction continues as before, with the priest touching the blessed bread to the wine and placing it in the communicants flat, open hand.
- Open seating (no more every other pew seating). If you wish to sit in a pew with someone who is wearing a mask, it would be respectful to provide appropriate social distance for that person.
- Passing the plates at the offertory is restored.
- Small bottles of hand sanitizer will be placed in pew racks. Please leave them there after using them. The hand sanitizers at the doors will remain. Frequent handwashing is encouraged.

These protocols will be reviewed by the Dean and Vestry regularly and may change pending recommendations and requirements by the Diocese and Washoe County health authorities. Thanks for keeping one another safe!
